

# BTDecor 2600 Advanced Call Blocker

## Block up to 100% of Nuisance Calls

The BT Décor 2600 Advanced Call Blocker, powered by trueCall's award winning technology, offers users complete control over which calls they want to take and those they wish to block.

### BT Advanced Call Blocking

The BT Décor 2600 includes BT's Advanced Call Blocking, which means you'll never have to speak to another cold caller again:

- The BT Advanced Call Blocker screens incoming calls:
  - Numbers on your contact list get straight through
  - Numbers you have blocked are rejected (selected by user)
- For all other calls the Advanced Call Blocker asks the caller to say their name and then asks the user whether they want to accept or block the call without speaking to the caller

Blocking calls can be done in a number of ways:

### Block by Number (or Area Code)

The BT DECOR 2600 can block up to 1000 individual numbers, meaning that you really can avoid speaking to the people you don't want to. Over time, the phone learns which calls you do and don't want to take.

### Send Calls to the Answer Phone

If you are unsure if you want to block the call, you can send them to the Answerphone and then Block from your calls list later.

# Main Features
